

I write regarding The Sinclair Broadcast Group's enforced airing of an overtly political program on all of its outlets in a few weeks.

I am rapidly losing faith in my government's ability and willingness to serve the people whom it is supposed to serve. The public airwaves are not owned by this (or any) corporation. Self-serving partisan programming of this magnitude constitutes an abuse of the people's property and of the privileges you are supposed to be regulating.

Please, you have the influence and, I believe, the duty to stop this particular action and any others like it.
